Soft Wall Decoration

Small changes can work miracles!

How about refreshing the interior of the bedroom or the living room within a few hours? Without unnecessary preparation, equipment or a big clean up after the renovation? With upholstered panels, it is very simple. These soft elements are practical as well as aesthetically pleasing, which has made them a popular choice in interior design.

Panels not only provide the room with additional warmth: a properly selected colour can completely change your interior. You will certainly appreciate their quick, clean assembly, which you can easily perform yourself and enjoy the effect on the same day.

Our offer includes 5 universal formats.

You can combine a number of panels with the same shape or use different patterns. Use your creativity!

Thoughtful Range of Colours

The colours of fabrics for upholstered panels have been selected so that they can be combined however you like, and the blend of colours and ranges allow you to accentuate the character of your interior in a stylish way.

What effect would you like to achieve? A strong accent or a moderate harmony?

INSTALLATION

Do you have any doubts?

Not sure how to install upholstered panels?

Visit www.vilohome.com and follow the installation video for our Upholstered panels.

Installation with glue

- 1 Before installing, clean the wall from dirt, e.g. with a cloth soaked with an alcohol-based cleaning agent
- 2 Arrange the panels according to the selected pattern.
- 3 Draw a horizontal and vertical line using a level. Make sure that the lines do not extend beyond the installation area.
- 4 Apply the Vilo glue on chosen spots on the back of the panel - in the middle and in the corners.

Use dedicated Vilo glue and enjoy quick change

- 5 Apply the panel prepared in such a way at the designated place and start gluing the pattern.
- 6 Continue gluing, arranging panels in accordance with the selected pattern.
- 7 Press each panel to the wall. Remember that the time to modify the arrangement of the panels is limited (due to the curing speed).

Installation with hook and loop fastener

- 1 Before installing, clean the wall from dirt, e.g. with a cloth soaked with an alcohol-based cleaning agent.
- 2 Arrange the panels according to the selected pattern.
- 3 Draw a horizontal and vertical line using a level. Make sure that the lines do not extend beyond the installation area.
- 4 Cut the hook & loop tape into strips of 5-6 cm in length. Attach both parts of the tape, remove the protective film from one side of the tape and stick to the back of the panel.

Follow the instructions on the tape package.

- 5 Remove the protective film from the outside of the tape.
- 6 Apply the panel prepared in such a way at the designated place and start gluing the pattern.
- 7 Glue the panels to the wall at a designated place. Press each panel to the wall.
